Flowering Bulbs

ANDERSON & Co.,

Seedsman and Plant Merchants,
399 George Street, Sydney.

(Opposite Royal Hotel).

Seed Warehouse,

(Opp. Royal Hotel)

399 George Street, Sydney,

February, 1902.

The Season for Bulb Planting is now with us,
and we take pleasure in sending you our
Select List of

Choice Flowering Bulbs

Cultivate them, and the flowers will be to you
"Nature's Sweetest Messengers of Spring."

We thank our very large circle of customers:
not only for their orders of last season for
Flowering Bulbs, but also for their kind recom-
mendations to friends, and we much esteem
the interest manifested and ask a continuance
of same.

To save disappointment please do not wait
until you are ready to plant, but order at once,
and advise when the Bulbs are to be sent.

The Flowers of Spring.

THERE is no class of Flower which gives more satisfaction or is hailed with more delight than those of the Bulbous plants, which, unnoticed perhaps, have been making growth silently all through the winter months, and at the first approach of Spring unfold their wealth of graceful beauty: fore-runners of the glory of a new life in the garden.

The DAFFODIL comes at a time when flowers are scarce, when the weather is cool and agreeable, hence their flowers keep fresh a long time, and add a brightness and charm to the garden, all their own. The charming sweet-scented HYACINTH follows it closely, and the lordly GLADIOLI, with their splendid spikes of strikingly coloured flowers, come on in quick succession for several months. The magnificent ANEMONES and RANUNCULUS make our garden gay with all the colours of the rainbow, and the stately LILIUMS tell us that Easter is not far off; all the other varieties have charming flowers. They are all easily grown on any good well-worked soil, and we give general directions on this page and special directions for each variety under their own headings.

PRACTICAL HINTS ON BULB CULTURE.

The Soil.

The soil should be in a nice, open, friable condition, and in case of heavy rains it is best to delay the planting a while. Avoid heavy, wet, or sticky ground, and while Bulbs require plenty of moisture in the soil, particularly after starting into growth, abundant drainage must be provided.

Preparation of Ground.

After the ground has been well dug over it should be allowed to settle for a fortnight or so. Planting on ground newly dug is unwise, as the Bulbs get to an irregular depth as the soil subsides.

The Depth to Plant.

It is a great mistake to plant too deeply; indeed, regarding Seeds as well as Bulbs, amateurs are apt to err in this respect. A good guide is the size of the Bulb, which should be covered to, say, once its own depth, measuring from base of Bulb to top; a Hyacinth, for instance, measuring two inches in depth, should be planted two inches below the surface.

The Time to Plant.

March, April and May are generally the best months to plant the Bulbs we list; May, June and July for Liliums, and Gladioli may be planted from April to October; Montbretias, Tigridias and Vallotta Purpurea are not ready for planting until June and July.

Manuring.

Bulbs of every description object to ammonia, and care must be exercised in avoiding fresh manure of any kind. Well-rotted cow or stable manure is decidedly the best; avoid manure from the fowl-yards. In all cases the manure should be dug well down and not allowed to come in contact with the Bulbs.

Mulching.

This should only be adopted in the case of late flowering Bulbs, such as Liliium, Gladioli, etc. Spring flowering Bulbs will bloom the best if the ground is kept perfectly open and sweet, and a liberal supply of water given when necessary.

CHEAP HARDY BULBS

FOR

MASSING IN BEDS OR BORDERS

Offered in quantity.
Varieties and prices
are given on page
11 of this List.

ANEMONES

These truly magnificent flowering tubers are deserving of a place in every garden, and we cannot too highly recommend them; their variety of colour, from deep crimson to white and striped, renders them very attractive. The foliage is very beautiful, and the plants bloom for a long time. They prefer a fairly strong soil, well drained; the bulbs should be planted about six inches apart and covered with about an inch of soil, which should be made firm about them.

- Dutch Single.** Mixed. All colours; a splendid assortment; very effective 1s. doz.; 5s. 100
Dutch Double. Mixed. Including many brilliant shades of colour 1s. doz.; 6s. 100
Dutch Single Scarlet. Very showy 1s. doz.
Dutch Double Scarlet. Brilliant and very double 1s. doz.
French Single. Mixed. Beautiful shades of colour; very large and showy 1s. doz.
The Bride. Single variety. Extremely beautiful pure white; flowers very freely 1s. doz.
Fulgens (Scarlet Windflower). Rich dazzling scarlet; light elegant growth 2s. 6d. doz.
Fulgens fl. pl. Double variety of the handsome Scarlet Windflower 2s. 6d. doz.
Chrysanthemum-Flowered. Mixed. A very distinct class, with large handsome double flowers; the petals are regularly incurved 1s. 6d. doz.
St. Brigid. A variety of exceptional merit, the flowers being freely produced and the colourings a decided advance on the other sections. The blooms give a large percentage of doubles and the singles show some strikingly attractive shades never before seen in Anemones. These bulbs are as easily grown as the ordinary class 2s. doz.

Double Anemone.

AMARYLLIS.

- A. Belladonna.** This well-known and splendid species is very variable, both in size and colour of the flowers, frequently producing variously shaded flowers, from almost white to reddish or purplish hue; they thrive best in light soil 6d. each
A. Formosissima (Sprekelia). The Jacobean Lily. Showy bulbous plant, with beautiful brilliant crimson flowers; a very handsome border plant 1s. each
A. Vittata (Hippeastrum). Hybrid varieties. These produce flower stems from eighteen inches to two feet, surmounted by remarkably handsome large heads of trumpet-shaped flowers of crimson striped with white, and white grounds with crimson markings; of easy culture; fine border plants. Fine bulbs (from seedlings) in mixture 1s. each; 10s. doz.

BABIANA.

Mixed 2s. doz.

Very showy plants, producing rich self-colours and very distinct hues in the same flower, with long wire-like foliage. To succeed with them they should be planted in a light sandy compost, with a small proportion of well-decayed manure.

BRUNSVIGIA.

Multiflora 1s. each

This magnificent border plant forms a handsome crown of flowers on a stem of about three feet, containing from eighteen to twenty-four separate large blooms; the colours are pink and white, with a delightful perfume; will flower first season.

CROCUS.

Blue 2s. 6d. doz. Yellow 2s. doz.
 White 2s. doz. Striped 2s. 6d. doz.
 Mixed Colours 2s. doz.

A well-known old English favourite. Only suitable to the colder districts. If the situation and climate are suitable no special care is necessary; will thrive in the poorest soils.

Amaryllis
Vittata
(Hippeastrum).

FREESIA.

Charming tuberous plants; flowers have a delicious perfume, and are of great value for cutting; each bulb bears one or more stems with eight or ten flowers. Most desirable pot plants, but they are perfectly hardy out of doors; should be planted four inches apart, and lightly covered; they are not particular as to soil or situation; grow to a height of from 5 to 8 inches.

Refracta Alba 6d. per doz.; 3s. per 100
 White; sweet-scented.
Leichtlini 1s. per doz.; 5s. per 100
 White, passing to primrose; yellow throat; pretty.

BEDDING HYACINTHS.

On page 11 will be found a list of Cheap Hardy Bulbs, which we offer in quantity; they are suitable either for massing in beds or borders.

Roman Hyacinths

Early White.

3d. each; 2s. 6d. per dozen.

This very beautiful and extremely early Hyacinth deserves to be largely grown; its pure white and deliciously scented flowers render it most attractive. It makes a very pretty show when grown in pots—4 or 5 in a 6-inch pot.

Hyacinthus Candicans

6d. each.

Distinct species of Hyacinth, producing a long spike, 4 feet high, covered with white bell-shaped flowers.

For Collections
OF
Hyacinths

see page

11.

IN THE OPEN GARDEN. These magnificent bulbs produce most charming garden plants, and are very easily grown. They prefer a good sandy loam, enriched with old stable manure, and will not succeed in dry soils. They should be planted in rows or in clumps 6 to 12 inches apart, and the crown of the bulb must be covered with at least an inch of soil. If the shoot when it comes through the ground shows an inclination to open and reveal the flower buds which it encloses, cover it up at once with some fibrous light material, or with an inverted flower pot, the object being to draw it from the bulb while it is enclosed in the leaves, and before the flower is exposed to the sun. If this is not done it sometimes happens that the flower begins to colour when only a portion of it has appeared, and the beauty of the spike is thus lost. The bulbs must be lifted when they have done flowering and their foliage has died down. October is the best time.

HYACINTHS IN POTS. They make beautiful pot flowers. Plant in 6-inch pots, good drainage, rich sandy soil; give plenty of water during flowering season.

To GROW HYACINTHS IN WATER.

(Glasses for this purpose see sundries inside back cover.) Place the Hyacinth in the glass sufficiently filled with water to allow the base of the bulb barely to touch it, place the bulbs in a dark cupboard for about three weeks, until the roots are well started; then remove them to a well-lighted position

in the room near the window, and as close to the glass as possible. Renew the water once a week, and keep it filled up to the base of bulb.

For Hyacinth Glasses, etc., see Sundries inside Back Cover.

SINGLE HYACINTHS.

8d. each; 7s. per dozen.

RED, and Shades of Red.

Betsy. Red.

Cleopatra. Large spike, bells salmon blush, good.

Comet. Pale red, strong grower, fine spike.

Eldorado. Deep crimson.

Eliza. Dark red, good form, large spike.

Grand Blanche Imperial. Rich deep blush; large.

Herstede Vrede. Fine red.

L'ami du Cœur. Beautiful bright rosy red.

Maria Cornelia. Light rose, early.

Monsieur de Faesch. Pink, fine.

Prosper Alpine. Dark red.

Robert Steiger. Bright crimson, large truss.

WHITE, and Shades of White.

Baroness von Tuyll. Large handsome truss, fine.

Emelius. Blush white.

Grand Vainqueur. Pure white, good truss.

L'Innocence. Pure white.

Madame de Stael. Pure white.

Triumph Blandina. Blush, good truss.

BLUE, and Shades of Blue.

Cœur Blanc. Dark purplish blue, large white eye.

Mimosa. Dark purple, very distinct, almost black.

William d'Erite. Purplish black, long spike, fine.

YELLOW, and Shades of Yellow.

Ida. Bright deep yellow, fine spike.

Fleur d'Or. Fine, pale.

DOUBLE HYACINTHS.

8d. each; 7s. per dozen.

RED, and Shades of Red.

Bouquet Royal. Rosy salmon, red centre.

Grootvorst. Delicate blush, handsome bells.

Herman. Large, blush.

Jenny Lind. Pink.

Noble par Merite. Rose, striped carmine, large bells.

Rouge Eclatant. Red.

WHITE, and Shades of White.

Bouquet Royal. Pure white.

Gloria Florum. Pure white, yellow centre.

Ne Plus Ultra. Pure white, violet centre.

Prince of Waterloo. Pure white, large bells.

BLUE, and Shades of Blue.

Bouquet Pourpre. Dark blue, very fine.

Directeur von Flore. Blue.

König von Württemberg. Deep strong blue; good.

La Belle Blanchiseuse. Blue.

Lord Noel. Blue.

Prince Albert. Black purple.

YELLOW, and Shades of Yellow.

Sovereign. Fine; good spike.

Gladioli
Nanceianus.

CULTURE OF GLADIOLI.

The culture of the Gladioli is exceedingly simple, as they will grow in any average soil; but to grow them to perfection the soil should be of a sandy or loamy nature, and should be well worked or trenched to a depth of 18 inches to 2 feet. If planted in rows the bulbs should be 8 to 10 inches apart, and the rows two feet, and covered to a depth of 3 or 4 inches. When the shoots are about 12 inches high they should be tied up to keep them straight. The soil between the bulbs should be well stirred and kept clean. It will not be necessary to water them unless the season is a very dry one, if the ground has been well worked as we recommend, but if watering is resorted to let it be done thoroughly if less frequently. A top dressing of manure over the surface of the soil is an excellent practice in summer. After the plants have finished blooming and show signs of ripening, by their yellow and brown leaves, the bulbs should be lifted and the shoots should be cut off close to the bulbs; and when the bulbs are properly dried the old sole or bulb should be removed and the new bulbs stored in a dry place until ready for replanting.

Hybrid GLADIOLI

All varieties 1s. each; 10s. per doz., post or carriage free.

FOR COLLECTIONS OF GLADIOLI SEE PAGE 11.

These charming hardy bulbous plants are quite as popular as ever; indeed, during the last few seasons they have been in large demand. Our annual window displays of the blooms have been a great attraction, and we are offering for 1902 the very fine collection, comprising 125 varieties, now listed. Some of the varieties can be supplied for May planting, but all of them can be obtained in July, for September planting; we recommend planting during this month, after the cool winter rest. With the warmth of early spring these charming flowering bulbs grow rapidly, and make a glorious display of bloom in the garden when flowers are scarce; indeed, Gladioli may be planted at various seasons, and it is quite possible to get a long succession of bloom. As a rule, however, the bulbs should be planted when they begin to shoot.

GANDAVENSIS GLADIOLI.

- Africain.** Slaty brown, scarlet ground, streaked scarlet and pure white, conspicuous white blotch.
- Agatha.** Rose, suffused with lake, flamed carmine, yellow spots.
- Agnes Sorel.** Large expanded flower, white, slightly tinged lilac.
- Ali.** Splendid spike of a peculiar colour; upper petals creamy rose striped cherry, one lower petal yellow with a rose sheen.
- Almee.** Lemon colour, suffused with rose on edges.
- Amalthee.** Pure white, violet and red blotch; lower petals tinted rose.
- Amitie.** Large fleshy rose coloured flowers; lower petals shaded straw colour, streaked purple, and edges flamed with bright rose.
- Andre Leroy.** Very fine deep cherry red, flamed and striped with a rich darker shade; white blotch and white stripe in the centre of each petal.
- Angelique.** Large flowers. White, slightly tinted flesh, blotch ivory white.
- Arch. M. Christine.** White, tinged lilac, flamed carmine.
- Aurore de feu.** Rosy scarlet, golden yellow centre.
- Baroness Burdett Coutts.** Delicate lilac, tinged rose; long spike of large flowers.
- Beatrix.** Pure white, flushed carmine.
- Bicolore.** Rosy salmon, lower petals white.
- Canova.** White, mottled rosy lake.
- Caprice.** Upper petals bright rose, tinted lilac, with broad pure white bands; lower petals and throat feathered purplish carmine.
- Carmen.** Straw colour, streaked rose amaranth on outer petals, citron yellow at base.
- Carnation.** Fleshy white colour, edges tinged richest carmine, lower petals blotched.
- Cervantes.** Bright rose colour, tinged lilac, fine.
- Crepuscule.** Flowers violet rose, flushed carmine, violet edged petals.
- Cristopher Columbus.** Rosy carmine, flamed red, large violet red blotch on lower petals.
- Cronstadt.** White flowers, profusely streaked and flushed lilac; very fine spike.
- Dallia.** Bright rose, flowers streaked and flamed with carmine, large pure white blotch.
- Demosthene.** Bright rose, flamed carmine, white streaks.
- Diademe.** Very fine, pale yellow, slightly edged rosy lilac.
- Diamant.** Fleshy white, throat ivory white, blotched and streaked carmine.
- Dr. Olmsted.** Large flowers of intense vermilion red, with white blotch and bands, profusely edged violet.
- Durandal.** Flowers of a pure white ground, divisions bright rosy carmine, streaked white.
- Eldorado.** Clear yellow, lower petals streaked red.
- Enchantresse.** Satiny pale violet white, streaked violet.
- Esmeralda.** Fine large flowers, well expanded, of a bright and striking colour, ground ivory white, striped and flamed with carmine red; lemon coloured blotch, tall and fine spikes.
- Eugene Scribe.** Large flower, delicate rose, blazed with carmine.
- Eugene Souchet.** Bright rose colour, large white blotch and stripes from the edges of petals.
- Fantome.** Large pure white flowers, slightly streaked at edges with rosy lilac.
- Faustine.** Fine shaped spike, rosy lilac, striped carmine red and blotched crimson.
- Fille des champs.** Pretty cherry rose, striped edges.
- Flamboyant.** Fiery scarlet, fine spike, very effective.
- Florensa.** Bright satiny rose, striped carmine on the edges, blotch creamy white.
- Fra Diavolo.** Large spike, bright orange rose, flushed violet, red at edge of petals, large pale yellow blotch.
- Gargantua.** Large flowers, rosy carmine, striped violet red, very bright in centre.
- Gerbe de Feu.** Dazzling scarlet, creamy white blotch.
- Grandesse.** Large flower; petals fleshy white, suffused lilac carmine blotch.
- Grandeur a Merveille.** Satiny lilac rose, streaked rose.
- Hercules.** Brilliant scarlet, flamed and streaked orange red, violet blotch.
- Klondyke.** Long spike; lemon yellow flowers, flamed red at edges.
- La France.** Pure white, slightly flamed carmine towards edges, amaranth blotch.
- La Parisienne.** White ground passing to lemon yellow, banded and striped mauve.
- La Perle.** Splendid spike with large flowers, pure lilac, blotched violet carmine on lower petals.
- L'Ardoisiere.** Bright scarlet, suffused and distinctly edged with slaty grey.
- Liley.** Large flowers, mottled with creamy white and bright soft rose, very delicate.
- Madame Poiret.** Good spike, coppery rose colour with slight golden blotch.
- Magnificus.** Handsome red spike, fine white blotch edged violet.
- Mahomet.** Dark violet carmine, white blotch and bands.
- Marguerite Cadeau.** Almost pure white, lilac rose eye.
- Michigan.** Bright cherry red colour, white blotch.
- Mimos.** Salmony rose, flushed and blotched, cherry red band, eye amaranth.

GANDAVENSIS GLADIOLI (Contd.)

- Miss Helyett.** Flowers rosy salmon, small carmine blotch, very brilliant.
- Mme. Auber.** Pale rosy lilac blotch, dappled light rose on some of the flowers.
- Mont Blanc.** Creamy white ground, turning to snow white; violet blotch.
- Mont Shasta.** Ivory white, tinged pale yellow on inner petals.
- Mr. Beljame.** Cherry red flowers, blotched and striped violet.
- Mr. Jansen.** Large rosy carmine flowers, edged and streaked violet red, cream blotch.
- Mr. Patrick.** Scarlet flower, with violet blotch on lilac ground.
- Mrs. P. Palmer.** Rose, suffused carmine, cream blotch, edge cherry red; very large flowers.
- Neride.** Large flowers, pearl rose colour.
- Neron.** Dark crimson, suffused with dark blood red and violet.
- Nestor.** Light yellow, lower petals veined dark red.
- Noemi.** Light rosy lilac.
- Norma.** Pure white, sometimes suffused with lilac.
- Nymphe de Fontainebleau.** Pure white flowers, throat slightly suffused amaranth.
- Olympe.** Rose suffused with lilac, blotch pure white.
- Ontario.** Rosy lilac, streaked white and flushed dark lilac.
- Ophir.** Dark yellow, purple blotch.
- Ovide.** Carmine red, with lilac sheen, edges red.
- Pactole.** Beautiful yellow, slightly tinged with rose at the edges; blotch of a darker shade.
- Papillon.** Well-formed spikes with flowers of a yellow ground, flaked and bordered with carmine.
- Parure.** Flowers satiny rose, white centre, edges streaked carmine.
- Pasteur.** Rose colour tinged with orange, centre band or blotch ivory white, buds scarlet.
- Pepita.** Golden yellow, edges of the petals slightly striped carmine towards the end of flowering season.
- Phœbus.** Brilliant red, with large pure white and very conspicuous blotch.
- Primatice.** Rose flamed with carmine and blotched on white ground.
- Princess Mary of Cambridge.** White, with very large light carmine blotch.
- Princess Mary of Teck.** Fine spike, flowers white ground, streaked with carmine.
- Prof. Maxime Cornu.** Flowers blood red colour streaked with deep vermillion.
- Prof. Sargent.** Intense orange rose, suffused scarlet, faint amaranth blotch on bluish ground.
- Rayon d'Or.** Creamy yellow blotch, rich purple, shaded yellow.
- Reine Victoria.** Pure white, carmine violet blotch.
- Romulus.** Dark crimson, white blotch.
- Rosalba.** Flowers white ground, large blotch bright carmine.
- Rossini.** Dark amaranth, streaked and blotched white.
- Sceptre de Flore.** Large flowers with white throat, having a carmine red star in centre, richest rose colour, spotted carmine at the circumference of the petals, lower petals slightly blotched carmine and pure white band.
- Sceptre d'Or.** Yellow, with large black blotches.
- Semiramis.** Carmine rose on white ground, flamed carmine.
- Shakespeare.** White, slightly suffused with carmine rose, large rosy blotch.
- Soliel Couchant.** Rose colour, suffused amaranth, white blotch.
- Suffren.** Bright cherry rose, carmine blotch.
- Sultana.** Satin rose flamed with carmine, purple carmine blotch on white ground.
- Teresita.** Upper petals of pure white, suffused with rose and striped carmine, lower petals pale rose, blotched and striped bright violet; stamens white.
- Therese de Vilmorin.** Flowers a creamy white, passing into pure white, few purplish rose stripes in centre.
- Titania.** Creamy salmon flamed with cherry, fine.
- Tournefort.** Fine spike, flowers carmine red, streaked slaty violet.
- Zampa.** Beautiful tender rose, mottled at edges with crimson.

NANCEIANUS GLADIOLI.

- Col. Archinard.** Salmon rose, lower petals pencilled purple.
- Devolliane.** A very distinct and striking shade of magenta.
- Dr. H. P. Walcott.** Bright scarlet, pencilled with sulphur yellow.
- Ducharte.** Very large flowers of reddish brown, beautifully shaded.
- Eugene Rambert.** Light violet, marbled violet red, yellowish blotch.
- Ferdinand Kegeljan.** Orange red, flamed salmony rose, lower petals blotched and pencilled straw.
- Gen. de Boisdeffre.** Large flowers, slaty rose, blood red blotch, pencilled and edged straw.
- Gustave Grunewald.** Flower splendid deep rich crimson.
- Julien Gerardin.** Large flowers, pale rose, marbled deep rose, red blotch, creamy edges.
- Peau Rouge.** Salmon coppered rose with brown yellowish markings.
- Pres. Carnot.** Satiny cherry red, marbled carmine, scarlet blotch on gold pencilled ground.

Gladioli.

LEMOINEI GLADIOLI.

- Aug. Vacquerie.** Straw colour, large purple violet blotch.
- Domino Rose.** Very large flowers, well expanded, pale cherry red, blotch marrow and straw colour.
- Emile Augier.** Pale sulphur yellow, fiery red blotch.
- Lacordaire.** Large, fiery vermillion flowers.
- Lemoinei.** Creamy white, tinged rose, purple blotch.
- Mad. Desboides Volmaire.** Large salmony white flowers, large scarlet blotches and edged straw.
- Micromegas.** Bluish violet, inner petals deep blue.
- Pierre Loti.** Bluish violet, suffused lilac at centre, two petals clean dark blue.
- Precurseur.** Fine bright rosy lilac, with carmine red blotch on a white ground; extremely early.
- Prof. le Monnier.** Orange scarlet, large dark blotches, edged golden yellow.
- Rosa Bonheur.** White, tinged lilac, dark carmine blotch.
- Senateur Volland.** Large flowers, pure blue, dark blotch with a yellow stain; striped blue.
- Tricolore.** Creamy rose, slightly suffused with lilac; blotch large dark violet, edged with clear yellow.

COLLECTIONS OF BULBS

We have increased the number of Collections, and we offer a fine list on page 11 and back cover.

Nothing can exceed the beauty of this charming family of plants, remarkable alike for their curiously constructed and quaintly marked flowers, and for the peculiar manner in which the colours are blended; they are easily cultivated. Plant from March to May.

IRIS KAEMPFERI (JAPANESE FLAG IRIS)

1s. each; 9s. per doz.

For size and richness of colour the following varieties of the Japanese Iris are unequalled, with an indescribable mass of colouring, flowers often measuring 6 to 8 inches across. They grow to a height of 2 feet, and like a moist situation, with light rich soil.

- Blue Danube.** Deep luminous peacock blue, yellow centre.
- Gem.** Pure white, each petal streaked with gold.
- Hana-aoi.** Blue purple shade; six perianths.
- Japonaise.** White, lightly shaded blue, gold laced.
- Kuma-funjin.** Violet; very double.
- Kumo-no-uye.** Large double; violet; six perianths.
- Meiran.** White, maroon variegated; three perianths.
- Oniga-shima.** Violet; six perianths.
- O-torige.** Light purple; three large perianths.
- Oshokun.** Violet; six perianths; large.
- Oyodo.** Violet; three perianths.
- Pyramid.** Tall and showy; light violet blue, white veins, gold band, white centre.
- Seraph.** Violet, gold band; very large.
- Shippo.** Blue; six perianths; large.
- Shirataki.** White; six large perianths.
- St. Ogg.** Purplish blue, shaded indigo, gold band; large.
- Trojan.** Purplish blue, gold centre.
- Uchiu.** Light blue; six perianths; large.
- Uji-no-hotaru.** Blue; eight perianths; large.
- Yedo-jiman.** Dark blue; six large perianths.

Montbretia.

MONTBRETIAS.

Crocsmæflora. Distinct varieties. Extremely hardy free growing plants, which flower profusely when thoroughly established. The flower stems are from 2 1/2 to 3 feet in height and gracefully arched, and the colours are charming—bright orange, golden yellow, orange and bright vermilion, striped vermilion and rose. They grow well in any soil. 3s. doz.

... Our Large ...
Illustrated Catalogue
of Seeds and Plants
will be issued in April.

IXIA. 2s. per dozen.

A charming family of hardy flowering plants; flowers are scarlet, lavender, white, or green, on light graceful stems in great profusion. Any light soil will grow them; they should be planted in clumps, or in rows four inches apart.

- Viridiflora.** Green flowered Ixia, one of the few flowers of this colour; a charming variety.
- Scarlet.** Most brilliant colour; charming flower.
- Yellow.** Beautiful shade of yellow, dark throat.
- Mixed.** Containing all colours.

JONQUIL.

Much admired for their beauty and delicious fragrance; they bloom very early, and last a long time; flowers much smaller than the Daffodils.

- Single. Yellow** ... 1s. 6d. per doz.
- Double. Yellow** ... 2s. 6d. per doz.
- Campnelli** ... 1s. 6d. per doz.
- Queen Anne's Double.** Yellow; handsome, rich, full yellow flowers, resembling a small perfectly double Rose; sweet scented. 1s. ea.

LACHENALIA.

- Quadricolour** ... 6d. each
- Very free flowering; flowers yellow, margined with green, red and orange; spotted leaves.

NERINE.

- Sarniensis (Guernsey Lily)** ... 1s. each
- Belongs to the Amaryllis tribe; thrives well in the open ground; flowers a pale salmon colour.
- Japonica (The Beautiful Japanese Spider Plant)** ... 6d. each; 4s. per doz.
- In September, after the leaves have withered, it sends up flower stalks nine to twelve inches high, which are crowned with umbels of bright red flowers with long curved stamens; charming.

Nerine Japonica.

ENTIRE SATISFACTION.

"The Bulbs I got some time ago are growing well. I have had much experience growing your seeds and plants, and have always found them good. I grew your seeds, plants, trees and bulbs for sixteen years at Lake Bathurst, near Goulburn, a cool climate. I lived for six years on the plains 80 miles west of Narrabri, a very hot, dry climate, and as long as there was any rain or water in the rivers, everything grew to perfection; Hyacinths, Anemones, Ranunculus, Narcissi, Hippeastrums and all other bulbs did well."
—W. A. STRANG, Inverell.—6-8-01."

See page 11 for
Special Collection of Lilies.

A magnificent family of summer blooming plants, with splendid tall spikes of handsome large flowers, white, spotted, and veined, according to the varieties; height of stem about three feet; very hardy.

- | | |
|---|----------|
| Harrisi (True Easter Lily). A most lovely pure white Lily, with long graceful tube-shaped flowers. Without doubt the finest trumpet Lily | 1s. each |
| Longiflorum . Pure white; dwarf | 6d. each |
| Candidum (Single White Lily). Very fragrant | 9d. each |
| Lancifolium Album . Pure white | 9d. each |
| Lancifolium Roseum . White, spotted rose | 9d. each |
| Lancifolium Rubrum . White, spotted red | 9d. each |

The Lancifolium varieties have magnificent flowers beautifully recurved, and with exception of Album are spotted.

- | | |
|--|--------------|
| Auratum (Golden Rayed Lily of Japan). The flowers are from eight to ten inches across; ivory white, thickly studded with crimson spots, and a bright golden band through the centre of each petal | 1s. 6d. each |
| Tigrinum (Tiger Lily). Orange, spotted black | 6d. each |
| Tigrinum Flore Pleno (Double Tiger Lily) | 9d. each |
| Thunbergianum (A Japanese Lily). Dwarf in habit; extremely showy, handsome flowers | 6d. each |

Lilium Lancifolium Roseum.

Lilium
Harrisi.

ALTHOUGH in Australia there is no such long winter rest for bulbous plants as in England and the Continent, nevertheless these charming plants, which mark the advent of Spring in the old country, have their short rest here, but as soon as the approach of Spring is heralded by the sunshine and warm days, the Daffodil wakes into new life, and soon puts forth its bright flowers in all their loveliness to deck our gardens and our homes, and mark the Springtime with their bright beauty just as effectively in Australia as they do in England. Visitors to our city who have seen the display of Daffodils offered by our florists and in our streets are not likely to forget that Spring brings us these fair flowers in profusion, or wonder that we should declare that the Daffodil is King of Spring Flowers.

THERE is no more easily cultivated flowering bulb, for although it prefers a strong loam or stiff soil it will grow and flower freely in any average garden soil. The land should be well

worked and deeply dug, and if trenched so much the better. Then little manure will be necessary, but if the land is very poor, well-rotted horse manure should be used. We offer strong bulbs which will flower the first season. These should be planted 6 inches apart, and the crown of the bulb should not be covered more than two inches. The flowers keep a long time when cut, and retain their brilliant colours in water for several days.

Incomparabilis or Chalice Cupped Daffodils.

- Autocrat.** Very handsome flower; full self-yellow 9d. each; 8s. doz.
Barri-Conspicuus. Large, broad spreading perianth; broad short cup, conspicuously edged bright orange scarlet ... 6d. each; 5s. doz.
Beauty. Red cup ... 6d. each; 5s. doz.
Cynosure. Large primrose perianth, and changing to white; stained orange scarlet cup ... 3d. each; 2s. 6d. doz.
Frank Miles. Soft self-yellow; very charming form. 1s. each.
Glow. Red cup; earliest; beautiful ... 6d. each; 5s. doz.
Gwyther. Large broad yellow perianth; crown suffused orange ... 9d. each; 8s. doz.
Nelsoni Major. Large white perianth; yellow cup, frequently suffused with orange scarlet ... 6d. each; 5s. doz.
Queen Bess. Pure white perianth; large, much expanded; pale yellow cup ... 1s. each.
Sir Watkin (Giant Welsh Chalice Flower). Rich sulphur yellow perianth; cup, yellow tinged with orange; beautiful ... 6d. each; 5s. doz.
Stella. Large white perianth; yellow cup 3d. each; 2s. 6d. doz.

Various Daffodils.

- Duchess of Brabant (Leedsii Section).** White perianth; yellow cup ... 3d. each; 2s. 6d. doz.
Minnie Hume (Leedsii Section.) One of the best. 6d. each; 5s. doz.

Poeticus and Burbidgei Narcissi.

- Alba Plena Odorata.** Double white; Gardenia flowered; useful for cutting ... 3d. each; 2s. 6d. doz.
Barri Sensation. Pure white perianth, cup canary, conspicuously edged orange scarlet ... 1s. 6d. each.
Burbidgei. Clear white perianth; cup margined cinnamon red; single; prefers cool climate 3d. each; 2s. 6d. doz.
Falstaff. Snow white perianth, lemon cup margined orange; does well in warm climate ... 3d. each; 2s. 6d. doz.
Grand Duchess. White perianth, spreading white cup slightly stained apricot ... 1s. each.
John Bain (Burbidgei Section). A beauty; nearly white ... 3d. each; 2s. 6d. doz.
Ornatus. Single; pure white imbricated perianth; flat cup, edged scarlet; beautiful ... 3d. each; 2s. 6d. doz.

Polyanthus or Bunch-Flowered Narcissi.

- Bathurst.** Pale lemon; good; large flower. 2d. each; 1s. 6d. doz.
Double Roman. White, orange nectary. 2d. each; 1s. 6d. doz.
Dubius Grandiflorus. Cambric white; very large 2d. each; 1s. 6d. doz.
Duchess of Albany. White perianth, orange cup; very large ... 6d. each; 5s. doz.
Gloriosa Superba. White perianth, orange cup; early 4d. each; 3s. 6d. doz.
Grand Monarque. White perianth, yellow cup; immense truss ... 2d. each; 1s. 6d. doz.
Grand Primo. White perianth, yellow cup. 2d. each; 1s. 6d. doz.
Grand Soliel d'Or. Deep rich yellow, with orange cup; very early ... 2d. each; 1s. 6d. doz.
Paper White. Charming pure white; exquisite perfume; very early ... 2d. each; 1s. doz.

Self-Yellow Trumpet Daffodils.

- Ard Righ (Irish King).** Large trumpet; yellow perianth 3d. each; 2s. 6d. doz.
Countess of Annesley. Sulphur yellow perianth; rich, full, yellow trumpet ... 4d. each; 3s. doz.
Emperor. Deep primrose perianth; imbricated sepals; large, rich, yellow trumpet; beautiful ... 6d. each; 5s. doz.
Golden Spur. Deep yellow; trumpet large and lobed; early ... 6d. each; 5s. doz.
Her Majesty. A fine, bold, self-yellow flower. 1s. 6d. each.
Major. Rich yellow; twisted perianths; hardy, late 3d. each; 2s. 6d. doz.
M. J. Berkley. Rich full yellow; trumpet much expanded and reflexed at edge ... 1s. 6d. each.
Maximus. Rich golden yellow; twisted perianth; large, late ... 6d. each; 5s. doz.
Maximus, Early. Finest yellow trumpet ... 1s. each.
Obvallaris (Tenby Daffodil). Rich yellow throughout; perfect form; most beautiful ... 3d. each; 2s. 6d. doz.
P. R. Barr. Primrose perianth; rich full yellow trumpet; free bloomer ... 6d. each; 5s. doz.
Santa Maria. Remarkably handsome and distinct; perianth gracefully twisted ... 1s. 6d. each.
Sunshine. Deep yellow trumpet, large and full; perianth slightly twisted; a fine flower ... 9d. each; 8s. doz.
Bulbocodium (Hoop Petticoat Narcissus). Colour like the Buttercup; small flowers; large corolla, with small outer petals ... 3d. each; 2s. 6d. doz.

White Winged or Bicolour Trumpet Daffodils.

- Grandis.** Large and finely imbricated; pure white perianth, large full yellow trumpet ... 6d. each; 5s. doz.
Empress. White perianth, great substance; rich yellow trumpet ... 6d. each; 5s. doz.
Horsfieldii. White perianth; rich yellow trumpet; large 6d. each; 5s. doz.
Princeps. Pale lemon perianth, often lighter than the trumpet ... 2d. each; 1s. 6d. doz.

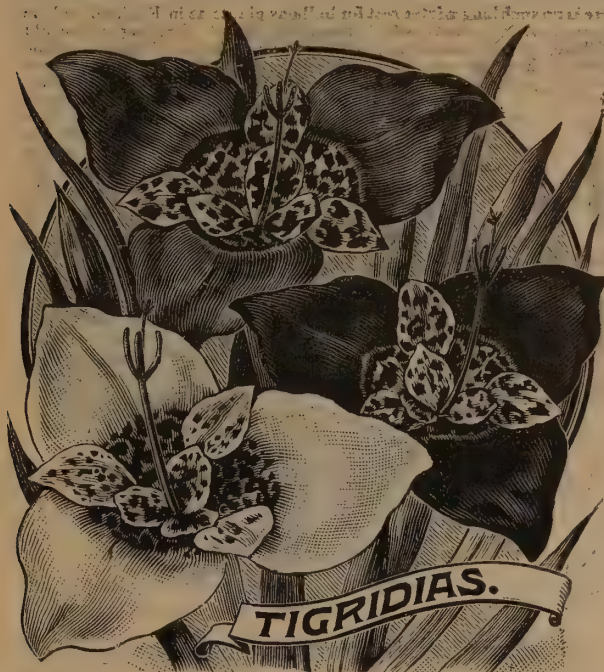

White and Sulphur Coloured Trumpet Daffodils.

- Albicans.** White perianth, trumpet primrose passing to white; elegantly recurved ... 6d. each; 5s. doz.
Helen Falconer. White trumpet, free flowering. 2s. each.
Moschatous (White Spanish Daffodil). Charming dwarf variety ... 1s. each; 10s. doz.
William Goldring. Long snow white tapering perianth, gracefully drooping over primrose trumpet... 1s. 6d. each.

Double Daffodils.

- Aurantius Plenus (Butter and Eggs).** Yellow with orange centre ... 3d. each; 2s. 6d. doz.
Orange Phoenix (Albus Plenus Aurantius). White, with orange nectary; beautiful ... 3d. each; 2s. 6d. doz.
Sulphur Phoenix (Albus Plenus Sulphureus). White, with sulphur nectary; exquisite ... 6d. each; 5s. doz.
Telamonius Plenus. Great double yellow Daffodil 3d. each; 2s. doz.

We hold LARGE STOCKS of Daffodils and will give SPECIAL LOW PRICES per 100 or per 1000.

TIGRIDIA.

Pavonia. The Tiger Flower, so called from the peculiar markings of its beautiful single crimson flowers, which are spotted with yellow; it is very hardy; height, 10 to 12 inches

Canariensis. Yellow, scarlet spots

Conchiflora. Yellow and red spotted

of Bulbs

see page 11

and ..

Back Cover.

ORNITHOGALUM ARABICUM.

Star of Bethlehem. A strong growing showy plant, with large bunches of flowers produced on a tall stem; colour, white with dark centre; very hardy

3d. each; 2s. doz.

RANUNCULUS.

We very strongly recommend the beautiful Ranunculus as one of the most charming of our spring flowering plants; the flowers are very double, and sometimes four inches across, a bed of them in full bloom is a glowing mass of colour. They prefer rich loamy soil, but will grow in any average land, if well enriched; they should be planted at least six inches apart, and the bed should be mulched with old manure when the plants begin to grow and the ground made firm about them. The bulbs should be allowed to remain in the ground two seasons, and the ground covered with stable litter or other light material so as to keep them cool during the summer months; this should be removed in the autumn and the bed top dressed and cleaned up.

The bulbs are planted claws downwards.

Turban Scarlet	1s. per doz.; 5s. per 100
Turban Yellow	1s. per doz.; 5s. per 100
Turban Grandiflora. Fine crimson and yellow	1s. per doz.; 5s. per 100
Turban White	1s. 6d. per doz.
Turban Black	1s. per doz.; 5s. per 100
Turban d'or. Scarlet and gold	1s. per doz.; 5s. per 100
Turban Mixed	1s. per doz.; 5s. per 100
Prince de Galitzin. Superb spotted; very distinct	1s. per doz.; 5s. per 100
Double French. Splendid colours	2s. per doz.
Persian Mixed. Very fine	1s. 6d. per doz.; 7s. 6d. per 100
Persian Finest Named Varieties. In distinct colours	2s. per doz.

SCILLA.

Wood Hyacinth. A beautiful little spring blooming bulb; will succeed in almost any situation, being perfectly hardy; flowers are of various colours, and are produced on a short stem; some of the varieties are very dwarf and exquisitely beautiful

3d. each; 2s. doz.

SNOWFLAKE (LUCOJUM AESTIVUM).

Snowflake. A beautiful hardy bulb of the Snowdrop type, which it strongly resembles; the petals are prettily tipped with green; it does well in almost any soil or situation; height when in flower about 12 inches

6d. doz.; 3s. 6d. 100

Giant Snowflake. A vast improvement on the ordinary variety, each bell being double the size of the old Snowflake; height when in flower about 12 inches

4d. each; 3s. doz.

SPREKELIA FORMOSISSIMA.

(JACOBAN LILY). SEE AMARYLLIS.

Tuberose.

.. For Collections of Bulbs

See page 11 and
Back Cover.

This genus of old favourite flowers can be grown in parts of our State with great success, and flowered the first season after planting. They prefer a rich sandy loam, but any ordinary land can be enriched by the addition of plenty of old stable manure to grow them successfully; if the soil is inclined to be stiff the addition of sand would be serviceable. The cooler districts of our State will grow them admirably, but they will do fairly well in other parts if a cool position is selected and plenty of water given, should the weather be dry during the growing season.

Single. Very fine mixed ... 2s. 6d. per doz.
Double. Very fine mixed ... 3s. per doz.

Single and Double Tulips.

Sparaxis.

Mixed. Embracing every shade and beautifully marked; for their refined colour and graceful habit Sparaxis never fail to win the admiration of those who possess a cultured taste; they are of easy culture; dwarf, 6 inches ... 2s. doz.

Pulcherrima (Dierama). Very beautiful species, known as "Fairy Bells," produces stems 3 to 4 feet long, with pendulous, bell-shaped flowers ... 6d. each

Tritonia.

Longifolia. A very useful decorative flower of a rich salmon colour; distinct ... 2s. doz.

Mixed. Allied to the Ixias. Exceedingly free flowering and bright; quite hardy and easily cultivated ... 2s. doz.

Vallotta Purpurea.

(The Scarborough Lily). A lovely free-flowering bulb of the Amaryllis family, suitable either for pots or borders; the flower is trumpet-shaped, produced in clusters, and of a rich orange scarlet; spikes, 18 inches ... 1s. 6d. each

Watsonia.

Rosea. Rosy red ... 6d. each; 5s. per doz.
O'Brieni Alba. White ... 6d. each; 5s. per doz.

Dry Bulbs can be supplied up to end of June,
and during July and August, in pots.

O'Brieni Alba is a magnificent plant; when in flower it is from 5 to 6 feet in height, and throws up enormous spikes, and produces side shoots which flower in succession for a month or six weeks; its bulbs increase very rapidly, and they should be lifted and divided every season. First-class addition to any collection of plants.

ALL FLOWERING BULBS ARE POST OR
CARRIAGE FREE AT PRICES NAMED.

Watsonias, Rosea and O'Brieni Alba.

OUR GENERAL CATALOGUE for 1902
